Dear Friends,

After the rocky road of the past couple of months, we have regained our optimism that the worst of COVID-19 is behind us. Reflecting this, we are thrilled that the CVL's first in-person event in some twenty months the Booziotis Distinguished Lecture - will take place this November. This is the first of several events we have planned over the next few months, not least of which is the Dallas Aging and Cognition Conference, where we will be honoring the scientific and mentoring contributions of our founding director Denise Park. I am also glad to say that CVL researchers have been able to continue to accelerate in-person data collection over the past few months. We are hopeful we will be back up to full speed in the near future in pursuit of our mission of cognitive health for life. As always, I greatly appreciate your continued support of our Center and its research.

Sincerely,

EVENTS

Mark Your Calendar

The Dallas Aging & Cognition Conference kicks off January 29-31, 2022, & will be dedicated to honoring the scientific contributions & impact of CVL founding director, Dr. Denise C. Park.
